

Andy Meranda Aerial Camera Privacy Policy

8 April 2017

1. The purpose for which data is collected is the sale of photographic or videographic services for real estate, marketing/advertising, land or structure inspection and the recording of special events using an Unmanned Aircraft System (UAS) aerial camera.
2. The UAS collects still photographs and videos of property, structures or special events where the owner has granted consent under North Carolina State laws.
3. Data is not retained by Andy Meranda Aerial Camera. The purchaser of aerial camera services will be provided with a memory card containing all photographs and videos taken by the aerial camera. No other copies will be made unless requested by the purchaser on media in the purchaser's possession. All copies will be the property of the purchaser. If the purchaser wishes to order editing services, the original memory card will be provided to Andy Meranda Aerial Camera and the edited or composed files will be added to the memory card and returned to the purchaser upon completion.
4. Examples of the types of entities with whom covered data will be shared are: real estate companies, individual home or property owners, marketing/advertising companies, land developers, public utility companies, construction companies, and organizers of special events.
5. Privacy and security concerns may be submitted to Andy Meranda Aerial Camera at ameranda@charter.net.
6. Andy Meranda Aerial Camera will respond to law enforcement requests to provide photographic or videographic data by supplying the requesting law enforcement agency with the name and contact information of the purchaser. Since no copies of the data will be retained by Andy Meranda Aerial Camera, it is not possible to provide this data directly to a law enforcement agency.
7. This policy is posted for public viewing at <http://maulepilot.com/uas.php> .
